

I am writing to comment on the possibility that KLOVE Radio, 91.9 in my area, may not be able to broadcast due to changes by the FCC. I have listened to KLOVE since 1984. It's positive message and music has helped me in many ways when I have been going through some difficulties in my life. There are many other music stations and many stations with talk shows and news. There are not many stations that give people an alternative to the negativity on those types of stations. I urge you to consider who is listening to stations like KLOVE. They are people looking for hope and encouragement in a world of joblessness, illness, loneliness, and other things that bring frustration, discouragement and sometimes hopelessness. Please help to preserve KLOVE's ability to minister to hurting people. Thank you for your thoughtful consideration of this matter.

Sincerely, Pamela Roarick
